

**AMENDMENTS TO THE CLAIMS**

The following listing of claims replaces all previous versions, and listings, of claims in the present application.

Please cancel claims 1-7 without prejudice:

1.-7. (Canceled)

8. (Original) An electronic control unit, comprising:

a case that is made of a thermally conductive metallic and has a first portion of a bottom surface and a second portion of the bottom surface, and a concavity disposed in the second portion of the bottom surface;

a circuit board disposed in the first portion of the bottom surface;

an onboard type electronic component disposed on the circuit board;

a resinous frame disposed in the concavity; and

a non-onboard type electronic component housed in the resinous frame.

9. (Original) The electronic control unit according to claim 8, wherein the circuit board is electrically connected to the non-onboard type electronic component via a metallic foil.

10. (Original) The electronic control unit according to claim 8, further comprising a conjunctive pin that is electrically connected to the circuit board.
